2023

EY
Building a better working world

As a global leader in assurance, tax, transaction and advisory services, we hire and develop the most passionate people in their field to help build a better working world. This starts with a culture that believes in giving you the training, opportunities and creative freedom. At EY, we don't just focus on who you are now, but who you can become. We believe that it's your career and 'It's yours to build' which means potential here is limitless and we'll provide you with motivating and fulfilling experiences throughout your career to help you on the path to becoming your best professional self.

The opportunity

Senior Analyst – EY Parthenon

About SAT and EY Parthenon

EY Strategy and Transactions teams work with clients to navigate complexity by helping them to reimagine their eco-systems, reshape their portfolios and reinvent themselves for a better future. Whether they are a corporate, private equity, government, sovereign wealth fund, private or family business, or educational institution client, we help with all their key strategy and transaction decisions

EY-Parthenon is a unique, world-class strategy practice that delivers long-term value to our clients, our people and EY. As a sub-service line within Strategy and Transactions, EY-Parthenon brings together professionals with diverse strategic capabilities and deep sector insights. We enable our professionals to lead from the front, unlock the full potential of strategy, transactions and restructuring, and reshape work, paving the way for high value impact for our clients. EY-Parthenon plays a critical role in driving collaboration between sub-service lines, within service lines and across the firm.

The opportunity

EY is looking for a suitable member for our team in Strategy practice. The role provides an opportunity to be part of the team which assist businesses in setting strategic goals and identifying the steps to meet them, analyse industry dynamics such as market size, growth, and share of leading competitors, identify the business' unique competitive advantage and help create alignment among all business units and functions to support and enhance this positioning. Team offers clients with Business Model Reinvention, New Market Entry Opportunities and Digital Strategy and Innovation

Your key responsibilities

- Assist clients with **formulation of strategies** around growth, market entry opportunities, expansion of products and services, operational improvements, or serving new customer segments
- Understand client business problems and assist them in developing **strategic goals** while identifying the key steps for the organization to meet those goals
- Offering **Go to Market Strategy** by identifying opportunities to improve how products and services reach customers including but not limited to decisions related to route-to-market, channel selection, pricing optimization, and customer segmentation
- Drive **commercial due diligence** projects for target assets by analyzing market dynamics including the size and growth of an industry, individual target's positioning, potential growth levers, risks, and opportunities
- Assist with solutions revolving around **Digital Strategy and Innovation** by assessing the clients underlying digital business models, explore avenues for new growth, both organically and inorganically, and construct the roadmap to build, grow and transform the organization for the digital world.
- Assisting **Transaction integration services** by deploying a holistic integration program that addresses topics such as people, value, control, execution and technology is imperative.
- Assist the project team to in help clients improve **portfolio management, divestment strategy and execution.**
- Also assist the project team in pre deal analysis and **Due Diligence by synergy identification, validation, planning and delivery tracking**. Also focusing on operational due diligence and IT due diligence.
- Responsible for a specific **workstream** in the project.
- Responsible for contributing **towards knowledge sharing portals** to build the practices intellectual property.
- Significant role in both formal training and **on-the-job training** of executives and analysts working in the project team.

Your key responsibilities

Technical Excellence

- Ability to deliver on complex assignments
- Experience in delivering business strategy and diligence projects in complex environments
- Strong quantitative skills for data analysis, interpretation of output, and generation of tangible insights and recommendations for the client
- Research oriented mindset
- Should have an eye for detail
- Ability to flex individual styles and work back with diverse teams
- Strong communication skills – oral and written (in terms of making presentation)
- Strong financial modelling skills and clarity of financial concepts
- Willingness and ability to travel

To qualify for the role you must have

- Graduation (from a premier institute) with a good academic background

Ideally, you'll also have

- Strong analytical, communication, facilitation, relationship-building, presentation and negotiation skills.
- Be highly flexible, adaptable, and creative.
- Comfortable interacting with senior executives (within the firm and at the client)
- Strong leadership skills and supervisory responsibility.

Skills and attributes

In addition to technical competence, what will set you up for success at EY is your ability to:

- Champion start up thinking and deliver innovative solutions
- Enhance business solutions by blending emerging technologies
- Embrace technology to transform new ways of working
- Deliver highest quality results
- Drive a culture of continuous improvement and learning for yourself and others
- Create value and build sustainable relationships that last a lifetime
- Be involved in a cause for the benefit of larger community
- Pursue passions beyond work and invest in your wellbeing

What we look for

People with the ability to work in a collaborative manner to provide services across multiple client departments while following the commercial and legal requirements. You will need a practical approach to solving issues and complex problems with the ability to deliver insightful and practical solutions. We look for people who are agile, curious, mindful and able to sustain postivie energy, while being adaptable and creative in their approach.

What we offer

With more than 200,000 clients, 300,000 people globally and 33,000 people in India, EY has become the strongest brand and the most attractive employer in our field, with market-leading growth over compete. Our people work side-by-side with market-leading entrepreneurs, game-changers, disruptors and visionaries. As an organisation, we are investing more time, technology and money, than ever before in skills and learning for our people. At EY, you will have a personalized Career Journey and also the chance to tap into the resources of our career frameworks to better know about your roles, skills and opportunities.

EY is equally committed to being an inclusive employer and we strive to achieve the right balance for our people - enabling us to deliver excellent client service whilst allowing our people to build their career as well as focus on their wellbeing.

If you can confidently demonstrate that you meet the criteria above, please contact us as soon as possible.
